

\*Fox Carcass in the forefront of the photograph. In the wood line behind this fox carcasses are where I observed several other fox carcasses and what appeared to be other wildlife bones.

\*Another fox carcass and what appears to be an animal's spinal cord nearby.

\*Animal skull.

\*Orange peel and empty container nearby.

\*Manassas Park Pump Station near the area of the carcasses. Carcasses were in the woodline behind this pump station.

\*Same orange peel and empty container from the earlier photograph.

\*Appears to be two decomposed wildlife carcasses.

\*Another fox carcass.

\*Two other fox carcasses.

\*Another animal skull.

\*Wildlife fur.

\*Arrow from fox carcass showing 20" length, serial numbers "0 44734 52138 7", and "Made in Korea".

\*Arrow from same fox carcass showing "Pile Driver Carbon Express".

\*Same arrow from the same fox carcass with green and white fletching's. I did not observe identification information on the rest of the arrow or the fletching's.

\*Broad head on the same arrow from the same fox.

\*Overall photograph of the decomposed fox carcass with the arrow in it, near the fence line surrounding the retention pond. (Old almond bag near the carcass.)

\*Orange peel inside the retention pond's fence, near the area where the carcasses were.

\*\*\*All photographs above were in the area of these GPS coordinates 38.766113, -77.423624.\*\*\*
