

Fredericksburg Regional Transit Announces New Route Names and the Realignment of Stafford County Routes

October 22, 2025 – Fredericksburg Regional Transit (FXBGO!) is excited to announce new realignments of the Stafford County bus routes, as well as a new route naming system. Taking effect December 1, 2025, these changes aim to enhance the clarity and accessibility of our transportation service.

Responding to extensive community feedback received during our Transit Strategic Plan, the newly revised Stafford routes will streamline service, reduce travel times, and better connect residents to key destinations throughout the County. These improvements are part of our ongoing commitment to create a more efficient and user-friendly public transit system.

In addition to the route realignments, FXBGO! is also introducing new route names. Beginning December 1st 2025, all Stafford County routes will be renamed to exclusively feature numbers. To aid riders in this transition, detailed maps and schedules will be available at Central Station and on FXBGO!'s Website beginning in November.

“Customer experience is at the heart of what we do at Fredericksburg Regional Transit, as our mission is to best serve the needs of the community. We are confident that the upcoming changes to the Stafford Routes will help us achieve this goal by increasing the quality of our service,” says Jamie Jackson, Director of Public Transit and Transportation for FXBGO!
